Southern Uplands - Looking Ahead

	Sunday 28 April	Monday 29 April
<p>How windy? (On the summits)</p> <p>Effect of wind on you?</p>	<p>North slowly backing toward westerly; 10 to 15mph, but from afternoon perhaps 20mph Borders.</p> <p>Fairly small.</p>	<p>Southerly between 20 and 30mph; least wind Borders; windiest Galloway where may reach 35mph for periods.</p> <p>Mainly west from Moffat area, likely to impede ease of walking widely, locally giving considerable buffeting and wind chill.</p>
<p>How wet? (Precipitation and its impact)</p>	<p>A few hail flurries</p> <p>A few hail flurries, mainly afternoon. In the Borders, highest risk Cheviot hills, risk of several hours of rain, or on The Cheviot sleet.</p>	<p>Rain, mainly near and west of M74</p> <p>Rain on and off, although into the Borders, the rain amounting to very little, perhaps dry all day near Lothians and Cheviots.</p>
<p>Cloud on the hills?</p> <p>Chance of cloud free summits?</p>	<p>Summits extensively cloud free</p> <p>Summits generally cloud free. Risk of low cloud forming on higher areas in precipitation.</p> <p>90%</p>	<p>Extensive west; very little east</p> <p>Generally the hills persistently foggy, the cloud forming near or below 300m Galloway and 450m east to the Moffat area. Toward the Cheviots and Lothians, hills substantially cloud free.</p> <p>30%</p>
<p>Sunshine? Air clarity (below cloud)</p>	<p>Sunshine will give way, particularly Borders as cloud layers thicken. Excellent or superb visibility, but very poor where snow sets in.</p>	<p>Patches of hazy sunshine restricted to eastern and northern Borders, mostly through high level cloud. Very good or excellent visibility but deteriorating to become poor in rain.</p>
<p>How Cold? (at 750m)</p> <p>Freezing Level</p>	<p>0C after dawn but extensively 5C by mid afternoon. Will drop back to 2C in precipitation. Widely near or below freezing point valleys up at dawn. By mid morning, summits above freezing point.</p>	<p>2C rising to 4 to 6C, coldest west of M74. Will feel as cold as minus 10C directly in wind in Galloway. Above the summits.</p>

Planning Outlook

All mountain areas of Britain from Sunday, 28 April, 2024

Less cold next week with freezing levels almost constantly above highest summits. Rain from time to time, particularly across Wales. Wind direction will be predominantly easterly. This will bring in frequent low cloud to more eastern mountains, with highest cloud base often near the west coast.

Forecast issued at 15:05 on Friday, 26 April, 2024
