<b>Freezing Level</b>	Above the summits.	Above the summits.

**Planning Outlook****All mountain areas of Britain from Friday, 10 May, 2024**

High pressure drifting eastwards during the weekend, whilst southerly breezes brings warmer air and often clear skies, with most places staying dry. A greater risk of some rain or showers by Sunday in the west. Low pressure then moving toward the south of Britain by early next week is likely to strengthen the winds and may bring some rain or showers for a time.

**Forecast issued at 16:27 on Wednesday, 8 May, 2024**

Forecasts are issued daily by 16:30 and are kept under review and amended as necessary. However, expected conditions can still change after issue. © Copyright Mountain Weather Information Service, 2024.
