And in the valleys	Ground frost in places at dawn. By mid afternoon, typically 9 to perhaps 12C.	Ground frost some valleys at dawn; will reach around 14C in the afternoon.

Planning Outlook

All mountain areas of Britain from Sunday, 28 April, 2024

Less cold next week with freezing levels almost constantly above highest summits. Rain from time to time, particularly across Wales. Wind direction will be predominantly easterly. This will bring in frequent low cloud to more eastern mountains, with highest cloud base often near the west coast.

Forecast issued at 15:05 on Friday, 26 April, 2024
