## Yorkshire Dales &amp; North Pennines - Looking Ahead

	Saturday 11 May	Sunday 12 May
<b>How windy? (On the summits)</b>  <b>Effect of wind on you?</b>	South to southwesterly 10 to 20mph.  <b>Small.</b>	Gusty southerly 15 to 20mph, stronger during gusts. Beware powerful gusts before thundery afternoon showers.  <b>Balance affected during gusts. In the afternoon, powerful gusts before showers may knock you off balance.</b>
<b>How wet?</b> (Precipitation and its impact)	<b>Risk of showers in the afternoon</b> Dry first half of the day, later with developing clouds local showers possible.	<b>Increasing risk of localised thunderstorms.</b> Occasional spots of rain falling from high level cloud from morning. Increasing risk of local showers and possibly even torrential thunderstorms by late afternoon. Persistent rain overnight as front moves in from evening.
<b>Cloud on the hills?</b>     <b>Chance of cloud free summits?</b>	<b>Hills mostly clear</b>  Chance of fog in the valleys and on the lower hills at dawn.  <b>80%</b>	<b>Most upland clear until rain forms</b>  A few patches of mist in the morning, including in the valleys. During heavier showers, cloud will soon envelop higher ground and mid-slopes for a time.  <b>70%</b>
<b>Sunshine?</b> Air clarity (below cloud)	Mostly sunny, clouds building up in the afternoon. Slight haze.	Patches of sunshine fading as high cloud thickens through day. Hazy or very hazy in morning. Haze mostly washed out by afternoon showers.
<b>How Cold? (at 700m)</b>  <b>And in the valleys</b>	14 to 16C. Feeling cool in the wind at times, especially when not in direct sunshine. 12C at dawn, rising to 21C.	13C. Feeling as cold as 5C at times in the wind.  11 rising to around 20C by mid-afternoon.

## Planning Outlook

### All mountain areas of Britain from Saturday, 11 May, 2024

High pressure drifting eastwards during the weekend, whilst southerly breezes brings warmer air and often clear skies, with most places staying dry. A greater risk of showers or thunderstorms by Sunday. Low pressure bringing wet and windier weather for a day or two Monday onwards. Becoming showery from Tuesday or Wednesday with varying cloud banks across many mountain areas. Temperatures remaining mild.
