Planning Outlook**All mountain areas of Britain from Friday, 18 May, 2018**

Extensively fine with sunshine and light wind over the coming week to ten days. However, rain will spread inland across western Scotland on Sunday, perhaps reaching eastern mountains before evening. The rain may well continue off and on through Monday, and could also temporarily affect hills near the Irish Sea. The dry conditions should then resume.

On the Scottish Highlands, sustained snowmelt, although some routes, mainly those in from the north onto some Munros are likely to remain blocked by hard snow and ice.
