General Summary for Tuesday, 20 June, 2017

British Mountain Summary:

Based on forecast chart for noon 20 June, 2017

A slow-moving front will lie across N England, bringing areas of low cloud, mainly to the Pennines. Very warm Wales and perhaps Peak District with extensive sunshine, beware sunburn, but risk of isolated thunderstorms. Scotland, fine some sunshine, particularly west.

Headline for Snowdonia National Park

Fine, very warm and sunny

Detailed Forecast for Tuesday, 20 June, 2017

How windy? (On the summits)	Northeasterly 10-15mph, becoming southeasterly 20-25mph late afternoon.
Effect of wind on you?	Mostly fairly small.
How wet?	No rain expected
Cloud on the hills?	Early cloud lifting and breaking Patchy cloud will shroud, particularly eastern hills, post dawn. However, this will progressively lift to clear most, if not all, summits by afternoon.
Chance of cloud free summits?	70%
Sunshine and air clarity?	Sunshine generally breaking through Slight haze.
How Cold? (at 900m)	15-16C
Freezing Level	Above the summits

Snowdonia National Park - Looking Ahead

	Wednesday 21 June	Thursday 22 June
How windy? (On the summits) Effect of wind on you?	South southwesterly: 10-20mph Later increasing 30-40mph and becoming quite gusty. Significant buffeting on exposed slopes developing.	Westerly 20-25mph, becoming southwesterly 30mph late evening. Mostly fairly small.
How wet?	Risk of scattered thunderstorms Risk of showery bursts of rain/scattered thunderstorms developing.	Substantially dry Isolated pockets of drizzle to start the day, soon clearing.
Cloud on the hills? Chance of cloud free summits?	Occasionally shrouding hills Cloud bases tending to vary through the day, but temporarily shrouding summits during the morning with patches possible down to lower slopes. Most hills clearing of cloud during the afternoon. 60%	Cloud generally lifting for a time during afternoon Cloud fairly extensive through the morning, but will likely lift to higher summits for a time during the afternoon, before lowering again into the evening. 30%
Sunshine and air clarity?	Hazy sunshine coming here and there. Visibility locally poor in rain, otherwise good but a little hazy.	Glimpses of sunshine breaking through during afternoon Visibility generally very good
How Cold? (at 900m) Freezing Level	15-17C Above summits	9 to 10C Above summits.

Planning Outlook**All mountain areas of Britain from Wednesday, 21 June, 2017**

During the second half of this week, the winds will turn west or southwesterly and increasingly bring frequent rain and low cloud to western mountains; particularly the west and northwest Highlands. Elsewhere total rainfall will remain fairly small, with driest conditions eastern mountains.
