<b>How Cold? (at 900m)</b>	8C	10C.
<b>Freezing Level</b>	Above the summits	Above the summits.

**Planning Outlook****All mountain areas of Britain from Friday, 18 May, 2018**

Extensively fine with sunshine and light wind over the coming week to ten days. However, rain will spread inland across western Scotland on Sunday, perhaps reaching eastern mountains before evening. The rain may well continue off and on through Monday, and could also temporarily affect hills near the Irish Sea. The dry conditions should then resume.

On the Scottish Highlands, sustained snowmelt, although some routes, mainly those in from the north onto some Munros are likely to remain blocked by hard snow and ice.

**Forecast issued at 14:32 on Wednesday, 16 May, 2018**

The production of the Scottish forecasts is fully funded by the Scottish Government through the Mountaineering Council of Scotland with the support of sportscotland. Forecasts are issued daily by 16:30 and are kept under review and amended as necessary. However, expected conditions can still change after issue. © Copyright Geoff Monk & Associates, 2018.
