British Mountain Summary:

Based on forecast chart for noon 11 August, 2018

Fine with little wind almost all day almost all of Scotland under a ridge of high pressure. From the south across Wales and later N England and by dusk S Scotland, windier, increasingly wet and foggy.

Headline for Southern Uplands

Fine; little wind and very clear air. Deteriorating toward evening.

Detailed Forecast for Saturday, 11 August, 2018

| | |
|---|---|
| <p>How windy? (On the summits)</p> | <p>Westerly 15mph at dawn. Soon less than 10mph before backing southerly. Will strengthen to 20 to 30mph during evening, strongest Galloway.</p> |
| <p>Effect of wind on you?</p> | <p>Negligible most of daylight</p> |
| <p>How wet? (Precipitation and its impact)</p> | <p>Rain spreading in late in day Dry most or possibly throughout daylight (particularly Borders). Nevertheless, late afternoon and evening, increasing threat of rain, initially near the Solway.</p> |
| <p>Cloud on the hills?</p> | <p>Summits substantially cloud free Summits free of cloud most or all daylight, although fog will begin to shroud the hills in rain evening.</p> |
| <p>Chance of cloud free summits?</p> | <p>Almost certain until evening</p> |
| <p>Sunshine? Air clarity (below cloud)</p> | <p>Sunshine will gradually give way as high, initially thin, cloud spreads northeast and then progressively thickens. Visibility excellent, but lowering in rain.</p> |
| <p>How Cold? (at 750m)</p> | <p>7 rising to 11C</p> |
| <p>Freezing Level</p> | <p>Above the summits</p> |

Southern Uplands - Looking Ahead

| | Sunday 12 August | Monday 13 August |
|--|---|---|
| How windy? (On the summits) Effect of wind on you? | South or southwesterly; 10-20mph. Small. | West or northwesterly, 10mph most of morning. Will tend to increase to 20, possibly 25mph. Small |
| How wet? (Precipitation and its impact) | Showers Overnight rain will clear by or dawn, or over a few hours following dawn. Scattered heavy showers will follow, most likely afternoon Borders. | Showers Occasional showers, mainly afternoon. |
| Cloud on the hills? Chance of cloud free summits? | Blanket fog mostly clearing Almost blanket fog across the hills overnight will mostly clear during morning, perhaps soon after dawn. A few patches will then be confined to higher areas near showers, although fog may persist all day or come and go from lowest slopes up near the Solway. 60% | Mostly clearing Fog will shroud highest areas extensively after dawn; but except near showers where patches will form below 600m, summits will become extensively cloud free by late morning. 70% |
| Sunshine? Air clarity (below cloud) | Sunshine intermittently and excellent visibility after a dull start (may remain dull/foggy near Solway most or all day). | Occasional sunshine. Excellent visibility. |
| How Cold? (at 750m) Freezing Level | 13C. Above the summits. | 11C Above the summits. |

Planning Outlook**All mountain areas of Britain from Sunday, 12 August, 2018**

Colder and wetter countryside over the next week or so. Rain (either as periods of constant rain or just showers) likely at some stage on several days, although some days dry. Cloud will often shroud higher tops, particularly western mountains in the mornings.

Forecast issued at 15:01 on Friday, 10 August, 2018

The production of the Scottish forecasts is fully funded by the Scottish Government through the Mountaineering Council of Scotland with the support of sportscotland. Forecasts are issued daily by 16:30 and are kept under review and amended as necessary. However, expected conditions can still change after issue. © Copyright Geoff Monk & Associates, 2018.
