Planning Outlook

All mountain areas of Britain from Thursday, 19 June, 2025

High pressure centred to the east draws very warm air in on southerly breezes through the rest of this week. Dry conditions, sunshine and fair-weather cloud, some patchy coastal cloud at times in west, locally gustier winds too. A more uncertain outlook into the weekend and early next week, a good deal of fine and warm weather possible, but risk of some rain or showery bursts at times.
