Based on forecast chart for noon 19 July, 2025

Some early rain near west coast, but the Highlands largely dry in morning. Into afternoon, bursts of rain becoming extensive heavy rain. A swathe of prolonged heavy rain moves north over England; intense downpours and thunderstorms, focused on Pennines. A few local showers Wales, but often dry. Fairly warm, locally gusty.

Headline for Brecon Beacons

Varied cloud, possible showers. Breeze increasing.

Detailed Forecast for Saturday, 19 July, 2025

How windy? (On the summits)	South to southeasterly, 10 to 15mph, reaching 20mph during afternoon, particularly western areas, gusty at times, by evening 25mph.
Effect of wind on you?	Mostly small, but feeling increasingly gusty.
How wet? (Precipitation and its impact)	Chance of a shower Often dry much of the day, bar an odd patch of rain toward east early morning. Isolated brief heavy showers may form. Into night, heavy rain sweeps in quickly from south.
Cloud on the hills?	Lifting, clearing many tops Patchy cloud banks on hills in the morning, most persistent toward east and southeast. Lifting to upper slopes during morning and breaking above tops.
Chance of cloud free summits?	40% rising to 80%
Sunshine? Air clarity (below cloud)	High cloud often covering the sky, but some sun breaking through afternoon. Visibility increasingly very good.
How Cold? (at 750m)	14 or 15C, small variation.
Freezing Level	Above the summits

All mountain areas of Britain from Sunday, 20 July, 2025

Unsettled onward into early next week, as slack low pressure drifts slowly over the British Isles. Slow-moving showers and areas of persistent heavier rain in places, increasingly thundery downpours, these most extensive over England and Wales by Sunday. Staying fairly warm, quite humid. Often low wind speeds, but gusty south-southeasterlies at times. By mid-next week onward into late July, west to southwesterlies likely to prevail, with some rain or drizzle at times mostly western Scotland, often dry further south and east.

Forecasts are issued daily by 16:30 and are kept under review and amended as necessary. However, expected conditions can still change after issue. © Copyright Mountain Weather Information Service, 2025.
