General Summary for Wednesday, 24 December, 2025

British Mountain Summary:

Based on forecast chart for noon 24 December, 2025

Patchy cloud on middle and high slopes of central and east Scottish Highlands, clearer west and north; high summits clear too. Most cloud in England stays east of the Pennines, little west including Lakeland where isolated to summits. Gusty wind in Wales, risk gales south; early cloud in the east will break.

Headline for Cairngorms NP and Monadhliath

Summits and northern slopes likely clear; light wind

Detailed Forecast for Wednesday, 24 December, 2025

How windy? (On the Munros)	South-southeasterly 10-15mph, some variability and gusty.
Effect of wind on you?	Fairly small though nuisance gusts will be common.
How wet? (Precipitation and its impact)	Most hills dry Some spots of fine drizzle where in cloud, largely dry.
Cloud on the hills?	Mostly middle and low eastern/southern slopes Cloud banks variably covering many slopes of the southern Cairngorms/Deeside, largely below 900m and may be in several layers, including into the Glens.
Chance of cloud free Munros?	90% (summits above cloud)
Sunshine? Air clarity (below cloud)	Most slopes sunny with good visibility, particularly on the high tops. More cloud lower slopes of southern Cairngorms and Deeside, a slight haze here.
How Cold? (at 900m)	Many south and east slopes -1 or 0C, locally up to 2C northwest of Aviemore. Temperature rises with height above about 1000m, some high sunny tops reaching 3C.
Freezing Level	Poorly defined, generally between 900-1100m, some frosts in sheltered glens/corries; high summits likely above freezing.

All mountain areas of Britain from Thursday, 25 December, 2025

High pressure stays put to the north into the weekend, maintaining dry weather, easterly winds, and mixed cloud and sunshine, most of the cloud in eastern areas. Temperatures will be variable, becoming milder for a time in England and Wales, with poorly defined freezing levels.

The production of the Scottish forecasts is fully funded by the Scottish Government through Mountaineering Scotland with the support of sportscotland. Forecasts are issued daily by 16:30 and are kept under review and amended as necessary. However, expected conditions can still change after issue. © Copyright Mountain Weather Information Service, 2025.
