

# Lake District

The entire Lake District National Park, taking in all major summits, including Scafell, Helvellyn, Skiddaw, the Langdales and Old Man of Coniston.

**Wheelwrights Cottages provide a wide range of self-catering accommodation around Langdale and beyond to suit all requirements. Please call us on 015394 37635 for details or go to [www.wheelwrights.com](http://www.wheelwrights.com)**

## General Summary for Sunday, 19 May, 2024

### British Mountain Summary:

#### Based on forecast chart for noon 19 May, 2024

Early areas of low cloud and fog will burn away through the morning to leave most mountains clear of cloud with periods of warm sunshine, most extensive for southwestern Scotland, as well as England and Wales. Cloud banks may persist for northern Scotland where it will be cooler. Risk isolated inland showers.

### Headline for Lake District

Fine with extensive sunshine and feeling warm. Beware sunburn and dehydration.

## Detailed Forecast for Sunday, 19 May, 2024

<b>How windy? (On the summits)</b>	East to northeasterly, 5 to 15mph.
<b>Effect of wind on you?</b>	Small
<b>How wet? (Precipitation and its impact)</b>	<b>Rain very unlikely</b> Small chance of a brief isolated shower mainly western areas late afternoon.
<b>Cloud on the hills?</b>	<b>Fells clear</b>
<b>Chance of cloud free summits?</b>	<b>Above 90%</b>
<b>Sunshine?</b> Air clarity (below cloud)	Extensive sunshine and excellent visibility. A little fair-weather cloud may build.
<b>How Cold? (at 750m)</b>	9 to 12C, locally warmer western fells.
<b>Freezing Level</b>	Above the summits

Lake District - Looking Ahead

	Monday 20 May	Tuesday 21 May
<b>How windy? (On the summits)</b>	Easterly or variable, 5 to 15mph.	Easterly or at times variable, 5 to 10mph, perhaps lifting to 15mph in the east later.
<b>Effect of wind on you?</b>	<b>Small</b>	<b>Small</b>
<b>How wet?</b> (Precipitation and its impact)	<b>Rain unlikely</b> Chance of an isolated shower forming later afternoon mainly western areas.	<b>Risk scattered heavy showers afternoon.</b> Dry all morning, then an increasing risk of some showers developing, perhaps some with some potent bursts, as an area of mid level cloud moves in from the east.
<b>Cloud on the hills?</b>	<b>Little if any</b>  Patches may drift onto higher eastern tops early in the day, but all lifting or dispersing.	<b>Mostly clear, risk cloud banks later.</b>  Fells clear for many hours, or much of the day. However, risk of banks of cloud forming on some eastern fells later.
<b>Chance of cloud free summits?</b>	<b>90%</b>	<b>80%, may lower to 40% in east afternoon.</b>
<b>Sunshine?</b> Air clarity (below cloud)	Patchwork of cloud and sun. Visibility very good.	Sunny morning, tending to see skies fill in with cloud in the afternoon. Visibility generally good or very good, may become misty in the east.
<b>How Cold? (at 750m)</b>	8C rising to 11C or locally warmer in west by afternoon.	9C lifting to 12C
<b>Freezing Level</b>	Above the summits	Above the summits

**Planning Outlook**

**All mountain areas of Britain from Monday, 20 May, 2024**

Pressure stays fairly high early next week. Mostly dry and quite warm for many places, but feeling cooler toward the north and east for a few days as air circulates around from the north. Easterly breezes will remain most common. Low cloud eastern hills at times, western mountains more often clear. Localised showers forming in the afternoons. Risk of more widespread rain developing by midweek with lower pressure likely, but much uncertainty about the position of developing weather systems by this stage.

**Forecast issued at 13:02 on Saturday, 18 May, 2024**

Forecasts are issued daily by 16:30 and are kept under review and amended as necessary. However, expected conditions can still change after issue. © Copyright Mountain Weather Information Service, 2024.
