

Lake District

The entire Lake District National Park, taking in all major summits, including Scafell, Helvellyn, Skiddaw, the Langdales and Old Man of Conistone.

Wheelwrights Cottages provide a wide range of self-catering accommodation around Langdale and beyond to suit all requirements. Please call us on 015394 37635 for details or go to www.wheelwrights.com

General Summary for Wednesday, 9 July, 2025

British Mountain Summary:

Based on forecast chart for noon 9 July, 2025

Extensive cloud and drizzle near the all western coasts; improving in the afternoon when only a few patches remain, most extensive on the Cuillin where it will also be windy. Cloud base higher well inland with occasional breaks; clearing Peak District and parts of Wales. Feeling cool in Scotland and mild in England and Wales.

Headline for Lake District

Morning drizzle fading; clouds tending to break

Detailed Forecast for Wednesday, 9 July, 2025

How windy? (On the summits)	Westerly 15 to 20mph, occasional 25mph on highest tops early morning in the northern fells.
Effect of wind on you?	Fairly small.
How wet? (Precipitation and its impact)	Drizzly rain mostly morning Drizzle or patchy light rain in the morning. Tending to fade, but leaving fine drizzle where in cloud in the west, making rock surfaces slippery.
Cloud on the hills?	Extensive, some improvement Shrouding fells widely in morning, bases 400-600m, lowest in west, to some lower slopes near coast for a time. Base rising a little, breaks forming soonest in east, but likely to linger over higher western fells.
Chance of cloud free summits?	10% rising to 40%
Sunshine? Air clarity (below cloud)	Largely cloudy, glimpses of sun developing mostly east/southeastern areas. Misty especially coastal hills in morning; visibility becoming good below cloud.
How Cold? (at 750m)	11C rising to 14C afternoon, humid. Feeling a touch cooler in the wind.
Freezing Level	Above the summits

All mountain areas of Britain from Thursday, 10 July, 2025

Forecast issued at 16:30 on Tuesday, 8 July, 2025
