

Lake District

The entire Lake District National Park, taking in all major summits, including Scafell, Helvellyn, Skiddaw, the Langdales and Old Man of Conistone.

Wheelwrights Cottages provide a wide range of self-catering accommodation around Langdale and beyond to suit all requirements. Please call us on 015394 37635 for details or go to www.wheelwrights.com

General Summary for Tuesday, 30 December, 2025

British Mountain Summary:

Based on forecast chart for noon 30 December, 2025

Quiet but chilly conditions, light winds and plenty of sunshine for much of the Highlands, much terrain frozen, sub-zero all day over hills and in some glens. A cold east-northeasterly breeze England and Wales, strongest toward south; fairly cloudy, locally an odd snow flurry over the Pennines.

Headline for Lake District

Cold, but wind tending to ease. Patchy cloud, sun best west.

Detailed Forecast for Tuesday, 30 December, 2025

How windy? (On the summits)	East to northeasterly 10 to 15mph, nearer 20mph in the morning.
Effect of wind on you?	Fairly small, but feeling noticeably chilly where exposed to the breeze.
How wet? (Precipitation and its impact)	No precipitation expected
Cloud on the hills?	Mostly very little Ragged patches some upper slopes in the north and east. Tending to lift off through the day. Otherwise, fells mostly clear.
Chance of cloud free summits?	80%
Sunshine? Air clarity (below cloud)	Broken cloud and sun, may be mostly cloudy in the east. Visibility very good or excellent.
How Cold? (at 750m)	-1 or -2C. Wind chill feeling like -5 to -7C.
Freezing Level	500-600m, but patchy frost into valleys in morning.

All mountain areas of Britain from Wednesday, 31 December, 2025

Significantly cold wintry conditions into the start of January. Air temperature well below freezing on high terrain, plus low minima into many glens and valleys with sustained hard frost. Strong northerly winds later this week giving severe wind chill. Frequent and heavy snow showers moving into northern areas and running down coastal extremities with significant accumulations. Elsewhere, lots of dry and sunny weather, although occasional organised bands of snow will feed south at times in the Arctic airflow. Staying cold into next week with scope for snowfalls more widely.

Forecasts are issued daily by 16:30 and are kept under review and amended as necessary. However, expected conditions can still change after issue. © Copyright Mountain Weather Information Service, 2025.
