## Planning Outlook

### All mountain areas of Britain from Saturday, 27 January, 2024

Total rainfall will be very small in Wales, the Peak District and the southern Pennines over the weekend and beyond. High winds over the weekend will temporarily ease for a day to two early next week. Periods of freezing temperatures will be brief on higher summits away from the Highlands, whilst across the Scottish Highlands, there will be a series of freeze-thaw cycles. Fronts continue to move across the Highlands, particularly the north west.
