Temperature (at 600m)	6 to 8C. Feeling below freezing in the wind.
And in the valleys	9C at dawn, rising to 14C afternoon.

Peak District - Looking Ahead

	Thursday 9 October	Friday 10 October
How windy? (On the summits)	Westerly 20 to 30mph, gusty in places around higher tops and edges.	West to northwesterly 15 to 20mph, in places gusty 25mph around some higher edges.
Effect of wind on you?	Blustery over the hills, starting to affect comfortable walking in places where exposed. Feeling cool.	Fairly small, but some spots feeling more noticeably gusty.
How wet? (Precipitation and its impact)	Some drizzle A little drizzle in the air at times, mostly west-facing areas.	Largely dry Rare pockets of fine drizzle westernmost areas in the morning.
Cloud on the hills?	Most persistent western moors Covering higher moors possibly much of the day above 500m western areas, locally lower in morning. Further east mostly near/above 600m, lifting above hills.	Low cloud tending to break up Varied low cloud and fog from dawn, becoming confined to upper slopes during the morning. Likely to lift and increasingly break above the hills into afternoon.
Chance of cloud free summits?	40%	30% rising to 80% afternoon
Sunshine? Air clarity (below cloud)	Glimpses of sun mostly eastern areas. Hazy west, better visibility east.	Glimpses of sun developing, best in east, sunshine more frequent afternoon. Hazy or misty start, improving visibility with time.
Temperature (at 600m)	9 or 10C, little change all day. Feeling near freezing in the wind.	10 or 11C.
And in the valleys	9C at dawn, rising to 15C afternoon.	10C at dawn, rising to 16C afternoon.

Planning Outlook

All mountain areas of Britain from Thursday, 9 October, 2025

Pressure gradually rises from the south later this week, improving conditions toward the weekend as wind drops lighter, most places become dry and cloud tends to break. Northwest Scotland holds on to stronger winds, cloud and some drizzle into Saturday. Scope for inversion conditions to develop with some valley fog and varied low cloud. Settled weather is likely to continue into next week, with mostly light winds, pleasant days and cool nights.

Forecast issued at 16:09 on Tuesday, 7 October, 2025
