Temperature (at 600m) And in the valleys	6C Between 7 and 9C	0C Will reach around 5C.

Planning Outlook**All mountain areas of Britain from Tuesday, 13 January, 2026**

High rainfall and intermittently windy across most mountains over the next week or more as a series of Atlantic lows cross Britain. With uncertainty in the tracks of some lows, Tuesday's forecast remains very uncertain - but by Wednesday a transient weak ridge of high pressure will bring a brief improvement. Higher summits sometimes below freezing point S Scotland southwards: snow may accumulate on highest summits. Mostly below freezing Scottish Highlands enabling snow to accumulate widely.
