## General Summary for Saturday, 6 August, 2022

### British Mountain Summary:

#### Based on forecast chart for noon 6 August, 2022

A warm front passes eastwards across Scotland, bringing cloud, some rain or drizzle. The northwest stays damp, but areas toward central Scotland will become brighter. Thickening cloud over hills of northern England and a little drizzle. Dry and fairly sunny for Wales.

### Headline for Snowdonia National Park

Dry, often sunny, moderate breeze. Beware sunburn.

## Detailed Forecast for Saturday, 6 August, 2022

<b>How windy? (On the summits)</b>	West or northwesterly 15mph, sometimes 20mph Snowdon range, but often less in mid-Wales.
<b>Effect of wind on you?</b>	Fairly small, but feeling cool in the morning.
<b>How wet? (Precipitation and its impact)</b>	No rain
<b>Cloud on the hills?</b>	<b>Little if any</b> Chance of local mist patches on lower slopes at first and brief fragments of cloud drifting higher up in the morning, but most tops generally clear.
<b>Chance of cloud free summits?</b>	<b>90%</b>
<b>Sunshine? Air clarity (below cloud)</b>	Sunshine and thin high cloud, some fair-weather cloud filling in for a time, then sunshine extends inland from coast later. Visibility excellent.
<b>How Cold? (at 900m)</b>	7C rising to 11C, locally warmer mid-Wales by afternoon. (Note: Cooler in inland valleys at dawn).
<b>Freezing Level</b>	Above the summits

## Snowdonia National Park - Looking Ahead

	Sunday 7 August	Monday 8 August
<b>How windy? (On the summits)</b>  <b>Effect of wind on you?</b>	Westerly, 10 to 15mph, perhaps 20mph occasionally early morning on northernmost tops.  <b>Mostly small.</b>	Direction variable, mostly less than 10mph.  <b>Negligible.</b>
<b>How wet?</b> (Precipitation and its impact)	<b>No rain</b>	<b>No rain</b>
<b>Cloud on the hills?</b>           <b>Chance of cloud free summits?</b>	<b>Little if any</b>  Rare patches around some coastal slopes early morning. Tops probably above the fragments, which will soon all disperse.           <b>90%</b>	<b>Mountains clear</b>           <b>Practically certain</b>
<b>Sunshine?</b> Air clarity (below cloud)	Sunshine and fair-weather cloud, which may cover the sky for a time inland then thinning. Visibility very good.	Strong sunshine; a little fair-weather cloud building inland for a few hours. Visibility excellent.
<b>How Cold? (at 900m)</b>  <b>Freezing Level</b>	10C rising to 13C, locally warmer mid-Wales by afternoon.  Above the summits	11C rising to 14 to 16C, warmest mid-Wales.  Above the summits

## Planning Outlook

### All mountain areas of Britain from Sunday, 7 August, 2022

Southwesterly winds continue to influence Scotland into next week. Rain or drizzle will be most frequent in the Northwest Highlands, where low cloud will often shroud coastal hills. Winds strengthening at times toward gale force on the tops. Further south and east across Scotland, it will be commonly dry with higher cloud bases, becoming warmer and more humid with time. High pressure extends across England and Wales, leading to a settled outlook for the week ahead here, generally dry with light winds, becoming increasingly warm or very warm, particularly in southern areas.

### Forecast issued at 16:30 on Friday, 5 August, 2022

Forecasts are issued daily by 16:30 and are kept under review and amended as necessary. However, expected conditions can still change after issue. © Copyright Mountain Weather Information Service, 2022.
