Sunshine? Air clarity (below cloud)	Mostly sunny. Visibility excellent, some haze may develop.	Sunshine and high cloud, which may sometimes obscure the sun. Visibility good, some haze.
How Cold? (at 900m)	Rising from 14 to 18C, then only marginal drop into evening and night.	16C from dawn, rising to 18C.
Freezing Level	Above the summits	Above the summits

Planning Outlook

All mountain areas of Britain from Thursday, 19 June, 2025

High pressure centred to the east draws very warm air in on southerly breezes through the rest of this week. Dry conditions, sunshine and fair-weather cloud, some patchy coastal cloud at times in west, locally gustier winds too. A more uncertain outlook into the weekend and early next week, a good deal of fine and warm weather possible, but risk of some rain or showery bursts at times.

Forecast issued at 16:00 on Tuesday, 17 June, 2025

Forecasts are issued daily by 16:30 and are kept under review and amended as necessary. However, expected conditions can still change after issue. © Copyright Mountain Weather Information Service, 2025.
