General Summary for Thursday, 11 August, 2022

British Mountain Summary:

Based on forecast chart for noon 11 August, 2022

A front will continue to meander off NW Scotland, continuing to bring gusty winds and later in the day rain (mainly near the coast north from Skye). Elsewhere, very warm or hot and sunny. Beware of dehydration and sunburn and of widely exceptionally dry conditions underfoot.

Headline for Southeastern Highlands

Blustery higher tops west of A9, Afternoon temperature approaching 30C some valleys.

Detailed Forecast for Thursday, 11 August, 2022

How windy? (On the Munros)	Southwesterly 20 to perhaps locally 30mph west of A9, most likely Ben Alder.
Effect of wind on you?	Marked increase of wind with height will result in arduous walking where exposed her Ben Alder
How wet? (Precipitation and its impact)	No rain
Cloud on the hills?	Not expected
Chance of cloud free Munros?	Greater than 90%
Sunshine? Air clarity (below cloud)	More or less unbroken sunshine. Visibility excellent; haze toward central belt, most noticeable morning.
How Cold? (at 900m)	Will rise to around 19C by mid afternoon. - very warm indeed.
Freezing Level	Above the summits.

Southeastern Highlands - Looking Ahead

	Friday 12 August	Saturday 13 August
How windy? (On the Munros) Effect of wind on you?	Direction varied, less than 10mph Negligible	Direction varied 10mph or less - there could be most breeze on lower slopes: possibly calm on some summits. Negligible
How wet? (Precipitation and its impact)	Rain not expected	Rain very unlikely Small risk isolated bursts of rain afternoon.
Cloud on the hills? Chance of cloud free Munros?	Not expected The hills cloud free, but risk fog in some glens temporarily after dawn. 80%	Little if any Rare patches of fog from valleys upward after dawn, but this soon dispersing. 90%
Sunshine? Air clarity (below cloud)	Extensive, perhaps unbroken sunshine. Excellent or superb visibility.	Extensive sunshine although some areas may turn more cloudy afternoon. Visibility excellent.
How Cold? (at 900m) Freezing Level	Will reach typically 19C in the afternoon - very warm indeed. Above the summits	Unusually warm: near or just below 20C from midday. Above the summits.

Planning Outlook**All mountain areas of Britain from Friday, 12 August, 2022**

The very warm or hot weather with extensive sunshine will last through the weekend, albeit on Sunday cloud will build, with risk of bursts of rain, possibly thunder later. The NW Highlands will often be cloudy and until the weekend less hot. Away from the W & NW Highlands, terrain is very dry or exceptionally dry - significant risk of fire. Indications are of it being less hot next week, with rain (including thunderstorms) from time to time within a general area of low pressure that will envelop Britain.

Forecast issued at 14:33 on Wednesday, 10 August, 2022
