General Summary for Tuesday, 11 July, 2023

British Mountain Summary:

Based on forecast chart for noon 11 July, 2023

Low pressure centred over northern Scotland, will bring an unsettled and showery day across all mountain areas. Clusters of showers from dawn near coastal areas, will spread inland and develop further into areas of heavy showery rain and local thunderstorms. Rainfall, slow-moving, over Scotland.

Headline for Southeastern Highlands

Areas of rain and developing heavy downpours, risk lightning. Hill fog in rain.

Detailed Forecast for Tuesday, 11 July, 2023

How windy? (On the Munros)	Speed and direction likely to vary, marked lulls, but sudden gusts around rain. Later becoming northwesterly 15 to 20mph.
Effect of wind on you?	Often small, may become breezier over the tops, feeling cool.
How wet? (Precipitation and its impact)	Heavy downpours, risk lightning Areas of rain from dawn, will rotate around a broad centre of low pressure. These will develop into clusters of showers with heavy downpours, and the risk these of merging into an hour or more of rain. Localised thunderstorms possible.
Cloud on the hills?	Fairly extensive in rain Some breaks in the morning, but often shrouding many mountains, local variations in and out of rain. Ragged patches lower slopes upward during/after heavier rain. Breaks possible between cloud banks.
Chance of cloud free Munros?	40%
Sunshine? Air clarity (below cloud)	Mostly cloudy, brief glimpses of sun, weak due to high cloud. Visibility good away from rain, but many mountains misty, poor conditions in rain.
How Cold? (at 900m)	8C, little change all day. If wind strengthens, will feel close to freezing on higher tops.
Freezing Level	Above the summits

All mountain areas of Britain from Wednesday, 12 July, 2023

Indications favour unsettled weather continuing through next weekend into the start of the following week with low pressure close to Scotland. Unlikely to see any very warm weather returning in the next couple of weeks.

The production of the Scottish forecasts is fully funded by the Scottish Government through Mountaineering Scotland with the support of sportscotland. Forecasts are issued daily by 16:30 and are kept under review and amended as necessary. However, expected conditions can still change after issue. © Copyright Mountain Weather Information Service. 2023.
