General Summary for Sunday, 19 October, 2025

British Mountain Summary:

Based on forecast chart for noon 19 October, 2025

Gale-force south to southeasterlies across the mountains. Extensively wet with blanket low cloud. The heaviest rain across Wales and southwest Scotland, pushing further across the southern Highlands with time. Driest conditions for northern Scotland early in day; briefly drier Pennines mid-late morning.

Headline for Southeastern Highlands

Upland gales. Increasingly persistent heavy rain.

Detailed Forecast for Sunday, 19 October, 2025

How windy? (On the Munros)	Southeasterly, 35 to 50mph, speeds varying, lower later in west; widely very gusty, including in passes / lower down.
Effect of wind on you?	Expect challenging walking conditions, sudden gusty areas knocking you off balance. Considerable wind chill.
How wet? (Precipitation and its impact)	Patchy rain and drizzle at first, heavier rain setting in Small amounts of patchy rain at dawn, but soon persistent rain setting in widely, soonest central highlands, sustained heavy falls develop across the region. Becoming very wet underfoot. Rain then fades overnight.
Cloud on the hills?	Extensive Shrouding the mountains most likely all day, from many mid-slopes upward, especially more southern areas. In rain, forming to many lower slopes.
Chance of cloud free Munros?	Below 10%
Sunshine? Air clarity (below cloud)	Sun unlikely, overcast all day. Hazy, or widely murky in rain.
How Cold? (at 900m)	4 to 6C, small change with added height. Feeling like -7 to -10C directly in the wind.
Freezing Level	Above the summits

All mountain areas of Britain from Monday, 20 October, 2025

A mixed outlook into the new week as low pressure dominates with areas of rain and showers , which will vary locally day-to-day. Some windows of drier weather, particularly central parts of the Highlands. Wind speeds will also vary, but some lulls, but abrupt spells of upland gales possible. Risk of heavier rain spreading from Wales into northern England and southern Scotland later Wednesday into Thursday. Likely significantly colder later in the week with northerly winds, dropping below freezing on higher mountains, with snow showers especially Scottish Munros.

The production of the Scottish forecasts is fully funded by the Scottish Government through Mountaineering Scotland with the support of sportscotland. Forecasts are issued daily by 16:30 and are kept under review and amended as necessary. However, expected conditions can still change after issue. © Copyright Mountain Weather Information Service, 2025.
