General Summary for Thursday, 23 October, 2025

British Mountain Summary:

Based on forecast chart for noon 23 October, 2025

Areas of rain and strong winds within a large area of low pressure, will circulate across Britain. However, although varied, many mountain areas, particularly mainland Scotland and NW England, between low pressure centres will experience relatively light wind and hardly any rain.

Headline for Southeastern Highlands

Mostly fine; risk a little rain eastern mountains.

Detailed Forecast for Thursday, 23 October, 2025

How windy? (On the Munros)	Direction varied, 10 to perhaps west of A9 and Ochils 15 or 20mph.
Effect of wind on you?	Small
How wet? (Precipitation and its impact)	Extensively dry Largely dry most or all day, although light rain or showers may reach Angus and later areas east of the A9. Snow above 1000m. Total rainfall small.
Cloud on the hills?	Clearing most, perhaps nearly all summits Generally, patchy fog from lower slopes up from dawn, but by late morning, cloud broken and mostly above 1100m. Some uncertainty for Angus where cloud may lower toward 500m at times in precipitation.
Chance of cloud free Munros?	80% by midday
Sunshine? Air clarity (below cloud)	Sunshine particularly west of A9, although areas of high thin cloud may slowly thicken at least east of A9. Visibility excellent or perhaps superb.
How Cold? (at 900m)	2 or 3C.
Freezing Level	1100 to 1300m.

All mountain areas of Britain from Friday, 24 October, 2025

A cold weekend; higher summits close to freezing point in England and Wales and below in Scotland. Substantially dry on many mountains but areas of frequent showers (hail and snow), mainly NW and W Highlands (where wind close to gale on Saturday) and north and west Wales. Some uncertainty for Sunday afternoon with threat of rain setting in on many western mountains - ahead of a less cold but often windy and wet few days.

The production of the Scottish forecasts is fully funded by the Scottish Government through Mountaineering Scotland with the support of sportscotland. Forecasts are issued daily by 16:30 and are kept under review and amended as necessary. However, expected conditions can still change after issue. © Copyright Mountain Weather Information Service, 2025.
