General Summary for Friday, 7 November, 2025

British Mountain Summary:

Based on forecast chart for noon 7 November, 2025

Cloud and drizzle in central and south Scotland, clearer hills (including some summits) north. Blustery coasts from Skye southward, Wales breezy too. A cloud sheet will cover English and Welsh peaks with low bases on south aspects. Rain over south Wales through afternoon, risk of afternoon rain for the Pennines.

Headline for Southeastern Highlands

Most hills shrouded with high terrain drizzle

Detailed Forecast for Friday, 7 November, 2025

How windy? (On the Munros)	Southerly 15-20mph with stronger gusts over tops at times. Trending southeasterly through the day, particularly lower slopes.
Effect of wind on you?	Fairly small
How wet? (Precipitation and its impact)	Some patchy rain and drizzle, mostly early A chance of patchy rain west of the A9, particularly early where rain may be heavy for a periods. Afternoon likely substantially dry. Some drizzle on the high tops in fog at times.
Cloud on the hills?	Fairly extensive, some variability Fairly extensive across middle and upper slopes much of the day. Base will vary, rising somewhat after dawn with a few breaks mixed in, though returning to lower slopes too. Highest bases from Loch Tay to Loch Ericht, though unlikely above 700m.
Chance of cloud free Munros?	10%
Sunshine? Air clarity (below cloud)	No sun expected. Visibility variable with cloud base, though excellent when out of cloud.
How Cold? (at 900m)	7 to 8C, some locally warmer areas on northern aspects near Glenshee. Also locally starting cooler from Callander northward to Loch Ericht.
Freezing Level	Above the summits

All mountain areas of Britain from Saturday, 8 November, 2025

As the following weekend approaches, indications of northeasterly winds developing for Scotland, bringing drier weather to the west, and potentially much colder with time. England & Wales may remain frequently wet under slow-moving low pressure - uncertainty over timing and locations of the coldest conditions.

The production of the Scottish forecasts is fully funded by the Scottish Government through Mountaineering Scotland with the support of sportscotland. Forecasts are issued daily by 16:30 and are kept under review and amended as necessary. However, expected conditions can still change after issue. © Copyright Mountain Weather Information Service, 2025.
