General Summary for Friday, 20 November, 2026

British Mountain Summary:
Based on forecast chart for noon 20 November, 2026

Most of Britain fine and sunny but snow showers far north and cloud and a little rain will clear gradually southward from S Pennines and N Wales - persisting S Wales. Across Scotland, terrain extensively frozen, and partly frozen southward into N England.

Headline for Southeastern Highlands

Extensive sunshine. Terrain mostly frozen. Little wind.

Detailed Forecast for Friday, 20 November, 2026

How windy? (On the Munros)	North to northwesterly 10 to 15mph or less, dropping widely to less than 10mph.
Effect of wind on you?	**Negligible**
How wet? (Precipitation and its impact)	**Precipitation rare if any** Chance of an isolated brief snow flurry, most likely Angus in morning.
Cloud on the hills?	**Very little: here and there patches lingering for some hours.** Mountains mostly cloud free, but here and there pockets of fog persisting for some hours higher slopes - mainly corries.
Chance of cloud free Munros?	**80%**
Sunshine? Air clarity (below cloud)	Bright sunshine. Visibility excellent.
How Cold? (at 900m)	-2C.
Freezing Level	750m. Lower terrain at least partly frozen, particularly valleys, after a frost.

Southeastern Highlands - Looking Ahead

	Saturday 21 November	Sunday 22 November
How windy? (On the Munros)	Variable direction below 10mph. Toward dusk easterly 15mph, perhaps stronger after dark.	Easterly 20 to 30mph, locally very gusty, sometimes on lower slopes.
Effect of wind on you?	**Negligible**	**Marked wind chill and sometimes abruptly gusty winds will make balance difficult in places; sometimes on lower slopes.**
How wet? (Precipitation and its impact)	**No precipitation**	**Precipitation not expected**
Cloud on the hills?	**Little if any** Chance pockets of fog on.a few higher slopes, most likely in corries.	**Little if any** Risk cloud forming on some higher areas - t this stage extent uncertain.
Chance of cloud free Munros?	**Almost certain**	**60%**
Sunshine? Air clarity (below cloud)	Extensive sunshine and superb visibility. Patchy fog in some glens.	Bright sunshine, although may cloud over at times. Visibility excellent or superb.
How Cold? (at 900m)	-2C.	-2C. Will feel as cold as minus 10C directly in the wind.
Freezing Level	Much terrain frozen in morning, partial thawing sunlit slopes up to 600-700m.	650m. Terrain frozen or partly frozen lower slopes, particularly those out of the sun.

Planning Outlook

All mountain areas of Britain from Saturday, 21 November, 2026

High pressure will bring a fine sunny weekend but extensively frozen terrain to most mountain areas. Bu Sunday, strengthening SE wind western Britain, and a band of rain will have edged into SW Wales - its exact penetration as yet uncertain.

Early next week, fronts and less cold conditions together with areas of upland gales will generate across Britain, turning to snow some higher areas. Nevertheless, total precipitation small N/NE Scotland.
