General Summary for Tuesday, 21 July, 2026

British Mountain Summary:

Based on forecast chart for noon 21 July, 2026

Breezy over northern Scottish mountains, tending to strengthen; fairly light wind elsewhere. Most places dry with some patchy cloud on tops largely clearing. Feeling warm in the sun. Northwest Highland coasts hold low cloud and some drizzle much of day. Chance of a late shower over the Pennines.

Headline for Southern Uplands

Largely dry, sun and patchy cloud west. Moderate breeze.

Detailed Forecast for Tuesday, 21 July, 2026

How windy? (On the summits)	Northwesterly 15 to 20mph, occasionally 25mph western tops later in day, more widely up to dusk, increasingly gusty around Cheviots.
Effect of wind on you?	Fairly small, some breezier areas on high tops mainly toward evening in west.
How wet? (Precipitation and its impact)	Generally dry Odd pockets of drizzle mainly western hills in Galloway toward Ayrshire early morning. Chance of an odd shower Cheviots later afternoon.
Cloud on the hills?	Mostly western tops, largely clearing Patchy cloud banks over tops above 600-700m in Galloway in the morning, some broken patches further eastward. Largely lifting to clear the hills, odd patches west.
Chance of cloud free summits?	60% west rising to 90% widely
Sunshine? Air clarity (below cloud)	Patchwork of cloud and sun, best toward south and east. Visibility very good.
How Cold? (at 750m)	12C rising to 15C afternoon in eastern areas, little change on western hills.
Freezing Level	Above the summits.

All mountain areas of Britain from Wednesday, 22 July, 2026

Largely dry weather continues this week as high pressure stays nearby. Very dry ground and high fire risk, beware of some ongoing fire management with locally restricted access to hills. A prevailing northwesterly wind brings further low cloud and some drizzle onto northwestern Scottish mountains - more widely across the western Highlands later in the week as the flow turns more westerly, with occasional steadier light rain. Patchy cloud over tops elsewhere, best sunshine and warmth in east and south-facing areas. Westerly winds strengthen everywhere into the weekend, bringing some rain and showers to all regions. A changeable and cooler outlook is expected into the last week of July.
