| How Cold? (at 700m) And in the valleys | Around 6C, feeling around -5C in the wind. 3 rising to 10C. | 2 to 8C, rising from the south. Feeling much colder if exposed to strongest winds. 3 to 10C, mildest southern areas; depending on position of a front, the milder air will tend to extend back northwards. |

Planning Outlook

All mountain areas of Britain from Sunday, 28 January, 2024

Total rainfall will be small on Sunday but a front waving across northern England and Scotland on Monday is providing some uncertainty. England and Wales remaining mostly dry with summits above freezing Tuesday onwards. Dry spells in Scotland punctured by a series of fronts moving across bringing bouts of precipitation and freeze thaw cycles to the Highlands.
