General Summary for Sunday, 3 August, 2025

British Mountain Summary:

Based on forecast chart for noon 3 August, 2025

Rain, low cloud and fog ahead of a front will clear Scotland late morning and England and Wales afternoon - but high humidity may maintain a little drizzle and low cloud Wales (most likely SW). Cloud base may not rise sufficiently to clear higher mountains mainly in W Scotland.

Headline for Yorkshire Dales & North Pennines

Wet, windy and misty morning; then improving markedly

Detailed Forecast for Sunday, 3 August, 2025

How windy? (On the summits)	Westerly, 25 to 30mph morning, strongest highest tops. Easing middle of day to 20-25mph, and by late afternoon 15-20mph.
Effect of wind on you?	Will widely impede ease of walking and notable wind chill; becoming small afternoon.
How wet? (Precipitation and its impact)	Rain and drizzle; clearing into afternoon Morning: Rain and drizzle frequently. Afternoon: Soon becoming dry.
Cloud on the hills?	Fog across the mountains - clearing into afternoon. Extensive down to lower slopes morning, particularly central and western fells. Through early afternoon, hills more or less clearing - may come and go highest tops for a while.
Chance of cloud free summits?	Less than 10%, rising to 90% by late afternoon
Sunshine? Air clarity (below cloud)	Patchwork of sunshine coming through afternoon. Good visibility after rain clears although slight haze.
How Cold? (at 700m)	11 to 13C warmest eastern summits. Will feel like only a few degrees above freezing point in the wind morning,
And in the valleys	Will reach 19 to 21C mid to late afternoon, warmest more eastern dales.

All mountain areas of Britain from Monday, 4 August, 2025

A mixed week: unusually stormy for August on Monday northern Britain, then intermittent rain though the week, most frequent and heaviest western mountains together with areas of low cloud and pulses of strong wind.

Forecasts are issued daily by 16:30 and are kept under review and amended as necessary. However, expected conditions can still change after issue. © Copyright Mountain Weather Information Service, 2025.
