**Planning Outlook****All mountain areas of Britain from Saturday, 17 January, 2026**

Often dry and chilly conditions into the weekend with a south to south-easterly airflow developing, gusty wind in places. General patterns into the second half of January favour a colder continental influence. The snow pack across the Scottish Highlands will be enhanced by further spells of snowfall where where fronts edge in from the west, whilst for England and Wales snow accumulating on the hills at times, perhaps in the form of showers from the east.
